THE CAPITULATIONS.

We have sever regarded it has Capitulations as accrossance, and recent wreats have confirmed as accrossance, and recent, wreats have confirmed as in one wider that these interfettions have had their day in Egypt. Their existence has for some time bears superficiency, it is row becoming a source of anxiety to all Burupean writtens are in use.

residents who wish to see harmonious relations existing between Boropeans and the natives of the country, and has long since irritated all patriotic Exprisans, who cannot but feel considerable vestation at the difference in the treatment accorded to the natives subject who malterast a European and the foreign eabject who michandles a native. We have no desire to access any mationality, any consultant, of partiality in its treatment of the cases that ratio between natives and Europeans. We recognise that the European officials and magintaries who may be a subject to be impervious to external influences. But nothing is glassed by hinking our eyes to the fact that these course have not always given natification, and the influence could be given where their decisions have been grossly unfair and have been explained at times by the incannot a subject to be impervious to external influences when their decisions have been grossly unfair and have been explained at times by the incannot have been could be given where their decisions have been grossly unfair and have been explained at times by the incannot be a subject to the country of the subject of the Consular Courts have belief or their collegues, and it is notiones that even judges of the Consular Courts have before may cours again: every service contains men who are inferior in mental calibre to the ball of their collegues, and it is notiones that even judges of the Consular Courts have before may cours again: every service contains men who are inferior in mental calibre to the ball of their collegues, and it is notiones that even judges of the Consular Courts have before may cours again: every service contains men who are inferior in mental calibre to the ball of their collegues, and it is notiones that our consular to the part of the difference of the consular countries. The part of the difference and the part of the difference and their countries.

consider the Capitelations from his point of view. Would not our thoughts run much as follows: "I, Mohamed Effendi Selim, have no quarral with the men who compose the courts, but I do not see the necessity for the difference in the treatment of Beropean and native criminals. My servant's brother, a silly fellow no doubt, brother the head of a subject of the King of Lithnania the other day, and by our law be went to good and wary rightly too. But when a subject of the Prunce of Baratavia stabbed the bowals of the homes three doors up the street, who tried to stop him kenfing a man in a low cold, sand the bowsh died of his wounds, cortain Baratarianson the jury lant a ready sat to the stories of witnesses whose pipoper place was the dock, and the said of it all was that the foreigner was let off with a ridisolously light sentence. Had be been a native subject he would have had treety year. Other foreigners have been let out on bail when charged with sections orimes against us and have not been prevented from fleeing the country and evading justice. Our may, if they break based or use knives, go to prace at cook. Their trial nowadays comes quickly, but the subjects of foreign countries water-from-for mouth, dring which they may be houset the difference in the treatment, and if deteasting on the country of the subjects of foreign countries water why the foreign they are all they want trial and the proper forms are observed we notice the difference in the treatment, and if deteasting on the Countries of the subjects of foreign countries water has been an anteres for which was provided and the proper forms are observed we notice the difference in the treatment, and if educative the countries of the produces and in the subjects of foreign countries water foreigners, that the judges must of a serve before clears. They may be housed to the difference of the subjects of foreign countries and in the server and in the server and an anterest for which he may may be housed the difference of the subjects of foreign they may b

Given such a state of mind, on we wonder that any outbreak of orime on the part of low-class Europeans against natives leads to disturbances, for this is not the first time that the Ros Hamanti and Anastanistreet have seen afrays. Instead of looking for widence of vast conspirates and portations pilot, left us face the fact that Alexandria contains a multitude of European and native blockgrades and that the position of the town, the first seport of the Eurant, makes it impossible to prevent constant additions to their number. "Uso non deficit after"—you deport a dozen undesirables and thirteen arrive by the next beat. Therefore we must hope for the establishment of Courts in which natives and Europeans will be properly represented on the Given such a state of mind, can we wonder satalishment of Courte in which natives and Beropeans will be projectly represented on the Bench and in which, whatever the nationality of the Beropean tried on a charge of committing a crises against a native, he will be tried under the same Code and with the same pro-cedure. Otherwise we must arged disastis-faction satong the natives, and as a large pro-portion of them are ignorate inse they may be counted upon to manifest their disastifaction by stupi'd violence. Very regretizable that they should be stupid and violent, but, my dear objector, argument has not yet superseded the half-first at home, and you show a certain natives if indepring the fact that in Egypt the argument of the nabout still survives.

COUNT WITTE'S POLICY.

RAILWAY AND POSTAL STRIKE.

(Gazette's Special Service.)

London, Monday, D.c. 18: Count Witte is now trying to indopt a secent policy of repression. The members of the work-ments control have been arrested. A railway and postal atrike is reported to-day from St. Potersburg.

REPRESSION IN RUSSIA, YESTERDAY IN ALEXANDRIA.

NO RENEWAL OF DISTURBANCE

TRIAL OF RIOTERS COMMENCES.

A great dea' was written and said last week as to what might be expected to occur in the city seated y. He are there was any real ground for a'rum must recast a matter of uncertainty. The certainty is that nothing whatever of an outeward character byposed. The trial if the natives accoused of participation in the late rich proceeded without anything more serious than a good deal of shouting in the street as the was conveying the prisoners arrived and departed, and nothing worthy of mote to ke place in Roceta Street.

note to k place in Rosetta street.

The authorities are to be commended for the The authorities are to be commended for the way effective presentions taken against a fortier riscons outbreak. Monate police patrolled the low quarters of the tow 1, and the least attempts at rou would have been suppressed before it could have attained any serious proportions. But so quiet was every neighborshood, that a stranger unaware of the history of the last few days would have wondered what the extra display of force meant. We trust that this state of things my continen and that the rowdyism that has been, unfortunately, so rife among the lower classes, both Baropean and native, my have received a check that will prove iffactive in the future.

The trial of the persons implicated in the

The trial of the persons impliested in the disturbances of Soundy week took place year-torky morning, in the Native Coart. R. wetw-street The court was presided over by Abl. SI Megid Bay Pend, and Mahfors Brytepresented the Payure, Hwikman Bay, Morine Bey, and Haddaya Bay being present. The number of the accused, brought into the court was 10k. "In the court-yard a crewd of about 100 matives" had gathered, and 40 policemen were on duty. —
At halt-past elevien the president of the Parquet began his speach for the presention, naming the period. See the Part of the American See the Part of the Coart of the Parquet began his speach for the presention, naming the period. See the Part of the Parquet began his speach for the presention of the Parquet began his speach for the presention of the Parquet began his speach for the presention of the Parquet defined the Parquet began his speach for the presentation of the Parquet and the Parquet of the Pa not have found an article in the Penal Code applicable to the present case, for its non yt S years since Articles 240 and 221 were added to the oods, owing to a simular incident which took place at that time... In abort, we have crought these people before you in the hope that they will resulve averse punishment to prevent further public disturbances. The case

pravail further public disturbances. The case was first in the hand of the police, and it than cased into those of the Parques, and now, the captive being computed. Log to lay the one to your hands, treating you will bear the responsibility of giving the proper jodgment."

At the conclusion of the speech for the pro-cention, some dissusation to k, place as to the defence of the prisoners, and finally the bearing was adjourned till next Starton's.

The trail of the second batch of II prisoners rook place this morning in the same Goart, and was still proceeding as we went to press.

ANTI-MOSQUITO CAMPAIGN.

THE PREVENTION OF MALARIA.

In reference to our leading article on the subject on Saturday last, the following extract from the article on "The Prevention of Malaria," by Lieut. Col. Giles, in "Climate and Health," will be of interest:

"In by far the majority of cases we must be content with

con ent with a partial success all along the line, by adopting such measures as may be locally most practicable. In the case, for example, of habitations placed in the midst of canal irrigation, where ample and efficient subsoil drainage is impossible or too expensive. the attempt to dastroy more alone can be little batter than a waste f time and money, for under such conditions, the breeding places are so numerous, and appear so constantly in new and unexpeoted situations, as to defeat the utmost vigilarce, and the thorough pro-tection of all habitations against the invasion of mo quitoes, and the careful treatment of all cases with quinine, is all that our be done. On the other hand, in an exceptional case, such as that of the town of I mailia in Baypt. where the rainfall is practically nil, and the breeding places all of artificial origin, the practical extermination of m quitoss may be expense in a single year, with the immediate All the world, however, knew or ought to know

that I mailia is the place par excellence where success attended well-organised effort. Under the superintendence of Dr. Press, of the Canal Company, acting on the advice of Major Ross. what was at one time a hotbed of malaris has now become famous as the town which first o notusively demonstrated the possibility of preventing malaria by clearing out its flag bearer, the mo quito. What has been done in Ismailia has been done in other places. Let us hope that in our other coastal towns at least and in Cairo the example of I-mailia will not be ignored.

SINAL

Some important remarks on the condition of Sinaitic antiquities are contained in M Maspero's review of Capt. Raymond Well's "Recneil des Inscription Exptiennes de Sinai" in the "Revue Critique" of a few weeks back. In this the head of the Service des Antiquités shows clear'y enough the state to which the Sinaitie inscriptions have been reduced by weather and the depred tions of the Bedonin, and that the transport to the Cairo Museum of such of them as could still be saved had al ready been begun by the Service before the expedition of last winter. He further explain how corefully the Sinaitio peninsula was sur veyed when its Egyptian monuments were in far better state than they are now-first by Palmer and Wilson, then by M. Benedite, and more recently by Dr. Borchardt.

THE VALUE OF A NAME

Mr. Sidney Low tells in "The Standard" story about a Madras trade man who brought an action against ano her to restrain him from using his trade name, which was E glish and high-sounding. The Judge of the High Court, whom we may call Sr William Ramsbury, in g ving judgment against the defaudant, ex plained that he was quite at liberty to adopt any name but that pre soon ied by the p'aintiff "May I use any name I like?" said the defeated litegant "Certainly," said Mr Jus tice Ram bory. The next morning his honor received a card amounting that 'R m bury and Company" were prepared to supply him for each on the most reasonable terms.

OUR FUTURE KING.

Some interesting stories of Prince Elward, in the "Treasury Magazine" Christmas numone occasion was asked by a little girl whom near Whit ley'," added the child proudly. "Ah." replied Prince Edward, with interest, "that's curious. We live near Gorringe's." Ocea gentleman was telling a long and dull aneedote to the Prince and his bother. After a time Prince Albert began to show unmistakable signs of weariness and impatience, at which Prince Edward anxiously nudged him, whispering as he did so, "Smile, smile."

FATE OF 6,000 BIRDS.

Nearly 60,00 birds were, after two pights 3! fog, found dead under the lantern of Cape Grianez lighthouse. They had been attracted by the brilliant light, and were killed by Sping against the lighthouse.

ARMY AND NAVY.

London, December 9

(FR M OUR CORRESPONDENT).

Major J. L. Armitage, tat Battalion Roy l Inniskilling Rusiliars, Balfast, has gone or retired pay under the age rules. He was a olever and popular regimental officer and his estirement is much regretted. Ha served with both the 1st and 2nd Battalions in the South Af ican War, for which he holds the medals, with clasps. As already announced in these notes, he is succeeded in the appointment of second in command of the 1st Battalion by Major HO.D. Hickman from the 2nd Batta lion at Cairon Major Hickman has worn the number of the old 19 h Yorkshire Regiment, as he was appoin ed to the regiment in 1880, was transferred to the Iuniskillings in 1881, ohtaining his company in 1×89, and his majority in 1900. He served with the Yorkshires in the Nule Expedition of 884-85 (medal with class, and Khedive's star) was attached to the B youisp rmy for some time, when he saw far her service in the operations in the Suda 1888, including the sotion of G maizah (4 h class Medjidieh, clasp) and he was with the In Battalion after ou its memor bla passage o the way to Ladyamith, incl. ding the actions of Beltast and Lydenburg (medal with two clasps). Major Hickman is on leave till the 31st inst., when he will assume the duties of second in command of the 1st Battalion.

Major J G. Fair, D.S.O., 21st (Empress of India's) Lancers, Hoonslow, has taken his retired pay after lover twenty years' service in that smart regiment. He got his first commission is the 21st-hed a Hossar regimen in August, 1885, his troop in 1-92, and m-jority in March, 1900, whilst on active service. dajor Pair was staff officer to Gatac e at the battle of Atbara, in Katchener's advance towards Kharteum, and at the batt e of Khartoom he was present in the same capacity mentioned in despatches, 4th class Medjidieh. British medal, and Khedive's medal with two claspa) He also served in the South African War, earning the D.S.O. and the medal with

Recent changes in the King's Royal Rifls Corps have brought in Captains D. Blundell-H.llin, h.d. Blundell, M.V.O., and R. Sims, D.S.Q, on the establishment, to which they were supernumeraries.

Lieutenant B. G. Bromhead and Sergeant H. Harvey, 1st Battalion Royal Berkshire Regiment, Dublio, passed at the recent examination in the advanced course, including the Maxim gun, at the School of Musketry, Hythe, A note to the official announcemen states that 'the k owledge displayed by Lieu tenant Baggalay (11th Hussars) and Lieutepart Bromhead was of the highest order. This was in reference to the Maxim gun.

The summary of recruiting, just issued by the War Offic . for 1905, hows that the results were fairly stretactory. From 1st January of this year till the 1st Outober the figures were eavalry, 2 726; artillery 5.745; engineer-703; infantry, 19, 62; departmental corps, 1,386; total, 29 929. Between the 1st October, 1905, and the 30th u.t. 24,557 men enlisted-21.498 for nine years, 1,073 for twelve years, and the remainder were short-service men. At the present rate of enlistment a substantial addition to these figures is anticipated at the e d of the year. The new short-service system is doing pretty well in several districts. 'Homesters' the recruits are styled in bar-

The new Premier, Sir Henry Campbell Bannerman, is not a persona grata with the British Army. As a War Secretary in the Gladstonian Administration of 892 he was a the eldest son of the Prince of Wales, are told dead failure without a single redeeming point and ultimately he blew his party and himself ber. The young Prince, says the writer, on out of office on the cordite question. So ole verly did he manage things that the stores he met out at tea where he live !. We live of that article were almost exhausted, and an adverse vote finished him. But it was reserved for him to be the most vehement traducer of our army during the South African War. when he denounced the army for he "me h ds of barbarism" it pursued in a manner which must have been halm to the feelings of our German cousins. Whilst be and his pro-Boe followers kept the B ers in the field by their delusive speeghes, he received many a hearty curse from the brave follows who were so gallantly keeping the flig flying under the ANNUAL REVENUE Southern Cross.

> The Leviathan has been re-commissioned at Chatham, with a crew of 891 officers and men, for service on the Mediterranean Station, as flugship of the Third Croiser Equadron.

A. V. THOMSON,

HOW TO BEAUTIFY THE CITY.

BY R. WILLIAMS, F.R.I.B.A.

and corners of Alexandria, many fragments of an older city. Pieces of carved or moulded stone, marble or granite may be found, here as a doorstep, there as a boundary mark, or lying prone on the ground half-buried in the dust Occasionally, in digging foundations, the "fase" of the digger strikes a piece of Greek sculpture or a Roman base, or a Byzantire capital, and, now and then, a piece of a great monolithic shaft is laid bare and anon come to view old colverts, drains, cisterns, and even cavernous catacombs. Much marble has disappeared for ever in the kilns of the lime burners and a few fragments, specimens of the architectural art as practised in ancient Alexandria, are saved in museums.

Alexandria's Architectural Giories.

But fragmentary as all these specimens are, sufficient of them remain to help us to piece together in our imagination some of the architec utal glories of the columnar halls, palaces, temples, and libraries of the great city of learning founded by Alexander some tweety-two centuries ago. But all has disappeared under the dust of ages, and save the fragments which tell us of ar istic labour and of the dauntless conrage in overco ing the difficulties of hewing. carving, polishing, and transporting heavy monoliths a distance of "00 miles from Assouan to the sea, not bing remains. The ancient grandear of the city has vanished, its great buildings enriched with the work of the artists of its day in hard, enduring marerial, have fa'len a prey, lass to the wear and 'ear of time, than to the changes as d chances of devastating wars.

The Old and the New,

Like Heliopolis, marked by its much older and finer monument of antiquity-a single obelisk-so is ancient Alexandria marked by its column set p by a Roman proconsul some sixteen hundred years ago, in t in time to give it warrant of antiquity, but very late as times are measured in Egypt. The work of the proconsul Pompeius towers up in its lone grandeur and strength of foundation, and if the ever of the rather roughly out acanthus leaves of its capital could have seen, they would have become dim with sorrow as they witnesse thow, one by one, vandal powers filled the columns of the many-pillared halls, loggias, and aread a that stood around and how, in lieu thereof, town upon the dust and debris of town arnee, and how mounds of "shakf" were formed by the broken pottery thrown way by succeeding ages of the populations as they passed down the stream or time, and how by degrees the Alexandria of to day has arisen-a city of Mex stone, soft brick and plaster-a renaissance traly, but a mere spectre of the old, ever crumbling and turning into dec y. The old robustness, the bold, spirited handling of blocks of granite and marble and the drawing thereout, with chi-el point and mallet, the beeuteous forms which lay hidden therein, have given place to tame ornament in fleeting

Signs of Change.

There are, however signs of change, to use words often on the lips of the great artist and man of letters William Morris, and strong hopes, yet tremulous fears, for art in this prosperous city of Alexandria. The land of Alexandria is as the land of Ophir, the gold of which was said to be good. The price of land is becoming fabulous, certain tracts of it, already high in price, have, in the space of three months, quadrupled, even though they have lain idle, but this is a property which land possesses all the world over, where many people are congregated.

We may perhaps, take the phenomenal rise practically unlimited. in the price of land as a good augury, deducting therefrom the following axi m:- The land is ex eedingly valuable, ergo the buildings erected will be highly artistic and of good material and sub-tantial: and as a corollary we may assume that there may be at hard the shering in of another era of artistic work in Alexandria, and which permeating all life, shall bring pleasure alike to the designer and the worker, to the user as well as to the beholder.

Improvement of Alexandria.

Like other great towns, Berlin, Paris, and Lordon, A exandria is improving herealf and borders. London has just opened a great new street, out through a congeries of small streets at a cost of many millions sterling. Paris is bury with its underground railway, and in Germany a most excellent municipal law has been passed whereby municipalities are able to schedule sprrounding lands for the future extention of

A'exandria has its fire tr et of land partly reclaimed from the sea, and to the engineerof the Muricipality much credit is due for their fire arrangement of sea wall and double lines of roads. That the elements may not have the mastery over the materials and const-uction of the sea wall, is the prayer of all who have the welfare of Alexandria at heart, but of course time can only tell as to the result. Me i wile a watchfil eye might be kept over the doings of the wave, always bearing in mind that in a wall as we'l as in a garment, "a stitch in time saves nine."

Example to our Municipality.

Like London with its new street 100 feet of Municipalities, and though the London

Eves accustomed to architectural forms and | Council may in the main be a worthy model d stails may see, here and there, in odd nooks for other Municipalities, it has, to my mird, committed a grave error in the matter of the architecture of its new street. It has shackled the architects with a style, which it has designated "Palladian Freely Treated" and the result, thus far, is not altogether satisfactory. But there is in the regulations of the Conneil of London as to the architecture of the new street a stringent clause as to materials. These must be of good stone, marble, granite or sound brick and stone combined. No "stucco" or plastering is to be permitted and in this the Alexandria Municipality may well follow the London Council.
Two questions now arise as to the feture

architectural development of Alexandria, and, here. I know full well that there are plenty of good men, both native and foreign, who would say to me :- "A fig for your architectural development, let us have more commercial and monetary development." To this, history supplies answers in plenty. To take an instance The decline of Venice began at a period of great commercial prosperity in the fifteenth century. Her nobler life and chaster architectural days had already passed and the force of her energy was now given up to money-making, giving proof, if any were needed, that the he ter days of Venice, or of any city, were those of which it could be said of the peoplethat all were for the State and none for self of party. But this is by the way. Let us come to the two questions which concern material and

Material for building.

First as to material. Alexandria has no stone save the soft Mex stone end the native brick, which is also sof and badly burnt. The material near at hand, therefore, is only fit for internal walls, and external walls covered with plaster. But Egypt abounds in good sandstone, limestone and red and grey granite. At Tourah there are stones which, if carefully selected, would make excellent building stone, and in making the election the analyses made by Mr. A. Lucas, of the Geological Department Cairo, will be, if consulted, of the greatest service. Then there is the hard, compact sandat ne of which many of the ancient temples were built and which prove its durability. This stone may still be ad without stint in the old quarrie in Upper Egypt.

In various parts of the Sudan some good building stones, as that used with fleet in building some of the Sudan railway stations, as at Ed Damer, may be found. Above Omdur-man in Gebel Awili there is a stone whio', if carefully treated, would make good building stone. Of several samples of this stone I have had analyses made by a London expert. There reed be no heritation as to its use in a dry climate, and with treatment of its surface it may be made to withs and the alternations of wet and dry weather.

Stone Preservatives.

Forther, many of the softer stones and even the better quality of the Mex stone might be treated with stone preservative, much as in Britain we treat the softer Bath stone : and here with regard to stone preservatives, I might add that I am now awaiting the arrival of samples of five d fferent solutions for the continuation of experiments already begun, with the view of hardening the best quelity of the soft material at hand and so as to free it from its dependence on stucco. Then as to bricks. There are several ways of making bricks. The sand at Ramleh might be turned into brick and the brick earth might be bette selected, washed and more thoroughly burned. Lastly, the supply of granite at Assouan is

Granite from Assouan

Boyot abounds, therefore, in material of which the architect can avail himself in which to design façades worthy of the rising prosperity of Alexandria. But while I write my heart misgives me, and the question occurs :-Is there public spirit and enterprise enough in Alexandria or in Egypt to undertake the quarrying working and transporting of granite from Assouan to Alexandria, and of course to all towns by the way? The granite is there in great masses. The apparently vast quantity used for the great dam 2,000 metres long by 37 metres high, has left no appreciable difference in the vast store awaiting the tool of the worker.

Determination, coupled with the love of the strong and beautiful, is all that is required. The resources of engineering can overcome all difficulties. The quarries border the Nile. The question of transit has already been con sidered and is reducible to so many plastres

For a government undertaking one can think of no better one than the establishment of vast granate works at Assonan, Egyptian granite as wel as Egyptian antiquities, new and old, might find its way into European markete, even as Seedish granite finds its way to England, Sortland, and even Egypt. Here, then, is a new Egyptian trade and an unlimited source of revenue.

Wanted-a bold renalssance.

But as I said, my heart misgives me, and judging fom an incident which I witnessed wide, Alexa dria has, in its new esplanade, an the other day I am dubious as to the roopportunity which comes but rarely in the way bustness of Alexandrian enterprise. Here is an account of the incident. A piece of an ancient

granite shart about three metres long and 75 c/m. in diameter was discovered in a foundation, and rather than lift the valuable piece of material out of the trench it was left to lie. The following is extracted from the P.W.D.

Under this heading advertisements are in wall across which it lay was arched over it. The piece of granite might have been used with effect in, say, a new ficade in Cherif Pashastreet. But there it lies beried, the softer material is easier worked and handled. And as we think of the incident the imperative question comes up: If a valuable piece of granita cannot be raised a height of three metres, how can granite be transported for 700 miles But it could have been done, of course, and done

It is in these things we want a renaissancea re-birth of the old love of good work and the fearless handling of material. If I were to say, here is gold in the granite of Assouan, Klondyke would result. But beneath the hard rugged exterior of the Assonan granite there is more than gold—there is beauty and lasting ntility. It is matter for the Bayptian Government ; for it, there is gold in the granite. The gold is in the pleasant and useful work it will supply to a large part of the ever-increasing population of Egypt.

SPATHIS'S GRILL ROOM. OLD BOURSE-ST., ALBIAMORIA.

Greatly enlarged and improved. New Ohot. privalled cooking, English specially catered for

Gas 311 new lamps have been added at a cost of some LE 2,400. This brings the total up to 3.813. This figure is hardly half of that required for the effective lighting of the city, and up to the and of 1904, the high rate charged for gas by the company neces rate coarged for gas by the sompany necessited the anspension of any further extension.
In the early days of 1905, however, responsible delegates of the company visited Egypt,
and treated direct with the Government. The
result has been satisfactory for both parties.
The rate for gas has been reduced an extension of the area has been granted to the
company, and many of the obscure points in company, and many of the obscure points in the original soncession have been recast and made clear. 3,252 lamps were fitted with incardescent burners in 1904—the results have been good.

Electricity. - 81,813 lamps (representing 1,843 private consumers) were connected in 1904, also 141 are lamps. 1,765 metres of high-ten-sion and 5,539 metres of lew-tension cable were laid in 1904. The number of lamps is rapidly increasing. The demand for the current has increased far more rapidly than was expected. and although the generating station was en larged last year, it has already worked to its full capacity, and the company will be obliged to erect a new generating set next year. It has been found impossible to obtain any reduction in the price of electricity for private individuals, when altering the convention, at the commencement of this year, The present rate is very high, but the company protests that it is at present anable to reduce it. The existing rate, however, has only been fixed for a period of five years, and it is hoped that, by that time, it may be found possible to reduce the charges made to the public.

CHRONIQUE JUDICIAIRE TRIBUNAL DE COMMERCE MIXTE DALEXANDRIE

ANNULATION DE SAISIE-ARRÉT

Annibal Varisco et Joseph Fermenton avaient fait saisie-arrêt entre les mains de Principe, en sa qualité d'agent de la Cie d'Assurances "La Estella de Madrid," de tonte somme qui serait due par lui à G. F-rrugia jusqu'à rêts compris. Par leur exploit introduct f d'ir stance ils demandaient, en outre, au tribunal de valider cette saisie arrêt et de la convertir en saisie-exécution.

Les requérants se disaient, en effet, créanciers 1' de la somme de £ 145, montant de l'avance versée aux intimés sur la location du vapeur "Zarifa" et du chaland "Assouan" à eux loués et ayant fait naufrage avant de leur ê relivrés; 2º de P.T 6,231, valeur du charbon embarq é sur le chaland et perdu par la négligence des

Mais comme le remorqueur "Zarifa" devant aller d'Alexandrie dans la Mer Ronge devait lai aussi être approvisionné et que ces provisions consistaient précisément dans les 32 tonnes qui avaient été embarquées dans ses soutes, le tribunal a estimé qu'il y avait lieu de les faire entrer en ligne de compte et de condamner les demandeurs à payer aux intimés P. T. 1448 pour solde de tout compte.

L'ENREGISTREMENT DES BREVET 3 AU SOUDAN.

On demands souvent qu'elles sont les formalités à remplir pour revendiquer la proprié é exclusive d'une invention ou d'une marque de fabrique au Soudan Ezyptien, afin de se réserver tous droits quant à leur usage.

Voici les renseignements que nous avons pu obtenir à ce sujet:

En l'absence d'un bureau de Brevets au Soudan, on doit, pour enregistrer un brevet ou une marque de fabrique quelconque dans ce pays, déposer à l'effice du Legal Secretary du Gouvernement Egyptien à Khartoum, ure copie d'un certificat transcrit dans le Registre des Brevets et Marques de fabriques d'un tribunal Mixte de Commerce en Egypte et une note détaillée spécifiant la nature de 'invention.

GOMME ARABIQUE.

Les arrivages de la nouvelle récolte ont commencé et s'élèvent pour le moment de 50 à 100 kantars par j'ur, mais par suite des fêtes du Baïram ils ont dû s'arrê er un peu, néanmoins on compte qu'ils vont reprendre régulièrement, et suivant leur importance on établira les cours.

Les prix actuels pour marchandise de la vieille récolte, dont il existe encore un stock insignifiant au Caire, sont de P.T. 85 à 87.

Les vendeurs sont très réservés en ce qui concerne des ventes à livrer sur la nouvelle campagne, et n'osent pas s'engager même à de bons prix, croyant à une hausse prochaine, vu l'énuisement du stock et l'incertitude sur l'importance de la nouvelle récolte.

Les exportations de Suez en Novembre s'élavent à 1.58 sacs.

BULLETIN DE LA BOURSE

(Avjourd'hui à midi et demis)

Les affaires se sont limitées, comme les jours précédents, aux Estates qui ont atteint un mement 1 9/16. O i clôture un peu plus faib'e à 1 17/32 acheteurs. La Part de Fondateu atteint 6 1/4.

Plus ferme également l'Investment à 1 1/10 acheteurs et le Trust de Glymenopoulo à 1 3/6 De 780 le Crédit Foncier Egyptien fléchit

à 777 les actions et de 316 à 315 les obliga-

La Land Bank gagne 1/16 à 7 13/16. Une légère reprise a lieu en Cassa di Sconto

de 211 1/2 à 212. Par co tre, la Sult and Soda baisse de 21/1 1/2 à 20/9, les Baux du Caire de 118 à 117 et l'Ordinary Khedivial Mail de 25/9 à 25/6. L'Alexandria Water ayant détaché son compon cote 14 3/8 ex.

L'ensemble du marché est complèteme t inactif, la spéculation attendant les événemente pour s'engager.

Circulaire H. de Vries et Boutigny

NOTES ET CRITIQUES

Le Caire, 15 décembre.

Les télégrammes de Londres signalent une nonvelle hausse du taux d'escompte, porté de 3 1/2 à 4 0/0. C'est une élévation de 5/8 en deux jours. On s'était décidément trop ha é d'abaiseer le loyer de l'argent à un niveau que oncurrence d'une somme de P.T. 23 368, onté justifiait sans donts une aisance renaissante, mais que ne conseillait peut-être pas la situation générale.

Le Consolidé anglais a perdu encore 1/8 à 89 1/8; mais les valeurs égyptiennes ont conservé leurs prix de la veille.

A Paris, le Crédit Foncier a regagné 2 france

Ici, ee matin, le marché a é'é assez animé. L'Agricole est plus soutenue à 9 3/16 achc-

teurs. La National Bank est délaissée, ainsi que l'action Crédit Foncier. Les Enterprise and Development, dont nous parlons plus loin, sont très demandées.

L'action avance à 12 et la part de fondateur Les Ciments, très mouvementés haussent ju-qu'à 80, m sis fléchissent vers la c'ôture à 7 acheteurs; les dividendes ont ouvert à 18

et clôturé à 20. Bonne demande sur les Improvement Corporation, qui s'incrivent à 4 1/8 ache eurs.

Dans le groupe des Hôtels, on est plus faib'e sur les Nangovich, qu'ou offre à 10 13/16. Par contre, les National Hotels sont très demandés: ils ouvrent à 3 15/ 6 pour c'ô urer à 4 1/16 asheteurs: Les Bach er sont fort soute nus à 2 15/6 acheteurs.

Parmi les petites valeurs, les E tates, en bonne tendance, avancent à £ 1 17/32 avec de gros échanges. Les Western Corporation se sont traitées à £ 1 1/32 avec un bon courant d'affaires.

Nous devons apporter une modification à la note que nous avons publiée hier pour expliquer la hausse qui se produit sur les actions de la Société des Ciments d'Egypte.

La maison Lambert & Ralli ne vient pas d'acheter tout le stock disponible de la Société des Ciments. De fait, cette maison est engagée depuis le 1er mai dernier à prendre 15,000 tonnes la 1ère année, 20,000 la 2ème et 24, 00 la 3ème année.

En ce qui concerne l'aff ire de la Cairo Heliopolis Metropolitan Electric Railway Company, elle a été traitée par MM. Lambert & Ralli en plus de leur cou rat, à des conditions avantageuses préalablement arrêtées aves la Société des Ciments. Il s'agit de 10,000 à 12,0 0 tonnes à livrer par année pendant 10

Nous apprenons, d'autre part, que la Société des Ciments d'Egypte vient d'être déclarée adjudicataire pour la fourniture de tout le ciment nécessaire à la Municipalité d'Alexandrie pour l'année 1906.

Hier, après midi, a en lieu, au siège social au Caire, l'assemblée générale extraordinaire de l'Enterprise and Develo ment Company. L'augmentation du capital cocial était à l'ordre du jour. Il s'agissait de le porter de L. E 16 .000 à L.E. 400,000, par suite du dével ppe ment considérable des affaires de la Soc é é. M Rolin pré-idait la réunion.

Des ren-eignements qu'il a donnés, il résul e que les bénéfices à ce jour (l'exercice n'est pas encore clos) s'é èvent à 30,000 livres, produits par la liquidation de deux affaires. Le capital initial se trouve entièrement employé et l Socié é a entamé d'autres affaires qui absorbe ront immédiatemment le nouveau capital de

La nouvelle émission a été entièrement ga rantie par un syndicat belge, qui prendra les actions à L.E. 11, c'est-à dire avec une prime d'une livre.

Les 24,000 L.E. de bénéfice provenant de opération seront pas-ées au fonds de réserve. L'augmentation du capital a été votée à l'unanimité, et l'assemblée s'est séparée aprèavoir félicité le conseil d'administration pour les résultats remarquables de sa gestion à ce jour.

Les cours du coton arrivent en hausse d'Amérique. Le spot a gagné 20 points, le janvier 10 et le Mai 12

Liverpool e t également en bonne tendance Les arrivages se sont élevés à 47,000 balles contre 45,000.

Ici le Mars a ouvert ce matin à 16 por r olôturer à 16 1/16.

MM. H. De Vries et Boutigny, agents de change, se chargent de l'exécution de tous ordres de Bourse (valeurs et marchandises) sur les marchés de Londres, Paris, Bruxelles. Anyers, Liverpoe! et New-York. La circulaire quotidienne de la maison est envoyée sur

Ordre du jour de la Commission

PICTURE POST CARDS.

"The Egyptian Gazette" Series is the most artistic collection to be found

TO O R VISITORS.

The Egyptian Gazette has much pleasure in presenting to its subscribers the accompanying description of some of the many interesting which they may travel homewards Great care has been taken to arrange them as accurately and concisely as possible, and it will be found that none of them are fraught with difficulty. In choosing the route home there are several things to be considered To begin with there is the difference in climate between Egypt and the various points at which you may arrive in Europe.

Telegraphic Address: CEPTRAL ALSOMAGGI

ENGLEBERG (1,019 Metres above Sea), SWITZERLAND. MOUNTAIN AIR CURE. HOVER TICTORIM. - Hug.

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Riviers, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uniformly warm than appropriate the same of the formly warm than many other places in Europe Many people leave Exypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to

on leaving Egypt is Sicily. Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time occupied on each of the various routes between Egypt and the Continent of Europe.

SICILY.

The direct route to Sicily is by the Florio-R battino Co.'s steamers which leave Alexandri weekly for MESSINA, where one takes

and the weekly for MESSINA, where one takes train to TAORMINA, one of the most charming and popular places on the island. Giardini is he station at which to alight, and the drive up to Taormina is most delightful, occupying about one hour. In and around the town is much to interest the visitor. The theatre is of Greek prining but restored under the Romens.

Greek origin, but restored under the Romans. CATANIA is the starting place for the ascent of Etna and here also is a fine Cathedral. The

Greek, Roman, and Saracenic remains that are found all over the island, are an endless sources of pleasure. SYRACUSE has an interesting history, having been a Greek city, which was designed by Demosthenes in B.C. 413, and taken by the Romans in B.C. 212, when Archimedes was slain his town in the control of the control o

when Archimedes was slain his tomb is to be seen. The cathedral was once an ancient pagan temple. PALERMO, with abo t 300,000 inhabitants, is the capital of the Island, and enjoys a delightful climate. Much of interest

Reale is of Saracenic origin and close to it the church of S. 'ii vannia degli Eremiti with its picturesq e cloisters. The Cathedral, Museum, Botanic Gardens, Villa Giulia and Royal Park are also worth a visit.

CENTRAL ITALY.

The fine steamers of the North German

Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage

being only 3 days.

NAPLES is also reached in 10 hours from Palermo by the Florio-R battino Co.'s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its bay—Castellamare and Sorrento. The small steamen that takes year to Sorrento.

small steamer that takes you to Sorrento [you can drive too] will take you on to Capri.

From Naples to ROME is a train journey of but five hours. All who can will devote at

least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known

to need comment here.

Leaving the Eternal City with mach regret,

a railway journey of five hours brings you to FLORENCE, where another week can well be

brosa, with its Monastery 3,300 feet above the sea level. This is made first by ordinary train from Florence to St. Ellero, thence by cogwheel railway to Saltino. The ascent through

groves of oaks takes an hour, and most striking panoramas are unfolded to view. PISA is easily reached from Florence in about 2 hours; here there is a fine Cathedral

and the Leaning Tower. A stay of at least one night should if possible be made, in order to enjoy the view from the Campanile at sunset.

VIAREGGIO. One of the most delightful places on the Italian Riviera near Pisa and on

the main line from Rome to Genoa. It is a very convenient half-way house between Egypt

and the air and surroundings exceptionally

to Egypt.

As regards the train journeys from Cairo, the shortest is that to Alexandria, without change (3 hours). That to Port Said, can now be made without change in 4½ hours.

The least expensive way to England is by the Moss, Papayanni, Prince, and Westcott lines of steamers from Alexandria to Liverpool. The German Levant line has also good steamers from Alexandria to Hamburg. The quickest manner of getting to Europe from Port Said is undoubtedly by the fast Mail Steamers "Osiris" and "Isis" to Brindisi. One of these leaves Port Said every week, as soon as possible after receiving the Indian

NORTHERN ITALY (Continued) The ITALIAN LAKES.

VENICE is a 5 hours journey by rail from Milan, and one of the most delightful places imaginable to pass a quiet stay. The total absence of vehicular traffic strikes one as very strange; no horse, cart, carriage or bicycle is to be seen, and yet there is the sound of life at every turn. The approach to Venice from the Adriatic is unlike that of any other seaport. The town seems to be grad ally, like Aphrodite, born of the sea, no hills behind, no stretches of rock, but first the tops of Campaniles appear above the horizon, then slowly the whole glittering town rises like a fairy mirage out of the calm lagoon.

Going northwards from Milan you make the tour of the beautiful Italian lakes.

COMO, the birthplace of the younger Pliny,

COMO, the birthplace of the younger Pliny, reached in one-and-a-quarter hours by train

by way of Monza:
Boats leave Como frequently for the other towns on the lake, which is very beautiful, and towns on the lake, which is very beautiful, and the scenery on either side going up the lake is most enchanting. CERNOBBIO is a charming spot; then come Tremezzo, Cadenabbia, and Menaggio with the prettily-situated town of Bellaggio opposite. The walk from Tremezzo along the shore of the lake to Menaggio is most accountly a starm tram runs from Menaggio. enjoyable. A steam tram runs from Menaggio to Porlezza on Lake Lugano in three-quarters of an hour, then steamer to Lugano in two-andthree-quarter hours.

SWITZERLAND.

Switzerland, the heart of Europe, has been described as "A cluster of delights and

LUGANO is some 20 miles from Como reached by train in one-and-a-half hours. It has reached by train in one-and-a-half hours. It has a population of 10,000 people and is charmingly situated on the Lake of Lugano, amidst lovely Italian scenery. Aro nd it rise M. San Salvatore, M. de Caprino and M. Generoso.

LOCARNO may be reached by rail from Bellinzona in forty minntes. This pretty town, situated at the try of Leke Marriers.

situated at the top of Lake Maggiore, has a mild climate, and is an excellent winter resort. The church Madonna del Sasso, situated above The church Madonna del Sesso, stuated above the town, is worth a visit, as it contains interesting paintings, "Entombment," by Ciseri, and "The Flight into Egypt," by Bramantion.

LUCERNE.—A striking picture on the Lake of Lucerne facing the Rigi and Pilatus and the snow-clad Alps.

In and around the town the walks are showning and the avanusions to be made from

In and around the town the walks are charming, and the excursions to be made from Lucerne by boat, rail, etc., are very numerous.

The Like of Lucerne abounds in delightful excursions, those to the Rigi, Pilatus, Burgenstock and Sonnenberg needing a special visit each. Other excursions on the lake can be made by steamer, and the ever-changing scenery on the trip from Lucerne to Fluelen is a source of delight, to the layer of neture.

a source of delight to the lover of nature.

BRUNNEN, charmingly situated on the most beautiful part of the Lake of Lucerne, commands magnificent views of lake and

mountain scenery. Along the Lake of Uri from Brunnen to Fluelen runs the famous Axentrasse. A delightful excursion from Lucerne is that to ENGELBERG. Take boat to Stansstad that to ENGELBERG. Take boat to Stansstad and from Stansstad it is about 1 hour and 40 min. by Electric Railway, with a lightful scenery en route. The ascent of Titles, is made from here, and the panoramic view of the Alps is grand; extending from Monte Rosa to the Black Forest, and from the Santis to the Motterho n.

THE BERNESE OBERLAND.—INTERLAKEN as favourite summer record and the best

THE BERNESE OBERLAND.—INTERLAKEN a favourite summer resort and the best centre for making excursions in the Oberland, abounding in fine walks and views. There is a magnificent view of the Jungfrau from the Hoheweg, a fine avenue of walnut trees the chief resort of visitors. Interlaken is also not far from the famous waterfalls, Giessbach, far from the famous waterfalls, Giessbach, Trummelbach and Staubbach. Then also the glaciers of Grindelwald and view from Murren

> CHATEAU D'OEX. 3,500 ft. above the sea on the new Electric Railway between Montreux and Interlaken, surrounded by magnificent scenery, with pure dry air. Much frequented by English people in Summer and Winter.

and the Schynige Platte are sights not to be

GREECE and IONIAN ISLES.

Many people visit Greece after wintering in Egypt, as it is so easily reached from Alexandria; the climate in April is charming. The best steamers are those of the Khedivial Mail Co. and the Russian Steam Navigation Co.

If possible tourists should arrange to be in Athens for the Orthodox Easter in order to witness the Good Friday and Easter Eve ceremonies, and to be presen at the dancing on the Easter T esday festival held at Megara for which a special train is run from Athens. It is worth while to spend a few days in CORFU on account of the beauty of the scenery. There is also good snipe and quail shooting to be had.

The most expensive but quickest through Continental routes are by P. & O. Brindisi express from Port Said, and the Austrian mails from the great liner arrived from These small but comfortable ships have Lloyd Trieste-Vienna express from Alexandria

These small but comfortable ships have enormously powerful engines, and attain a very high rate of speed. They are called the "Ferry boats," having been specially built to carry the British mail from Port Said to Brindisi. If you are going atraight through to England yo will find the train waiting at Brindisi which will take you to Calais without changing. It has complete arrangements for sleeping and eating on board, and you should arrive in London on the fifth day from leaving Port Said. Lloyd Trieste-Vienna express from Alexandria.
As regards heavy luggage, it must be borne in mind that very little luggage is allowed free on the railways of Europe, but there are several good and responsible forwarding agents in Egypt who undertake at a fixed charge to deliver packages to any address in Europe. Port Said.
